

EDUCATION

Study Program

Strathmore university taking Information Technology

Study Program

University of Helsinki taking fullstack web development

PROFILE

Web developer

I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g., developing apps and building websites. I have recently created a front end of an e-commerce website. As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team. I am highly adept at both independent and collaborative projects, with an emphasis on website development. I have a 1 and a half years experience in web development. I am also open to learn any new required technology to work with.

SKILLS
